

How to: Patient Portal Version 2.7.3 Current Enrollment Workflow

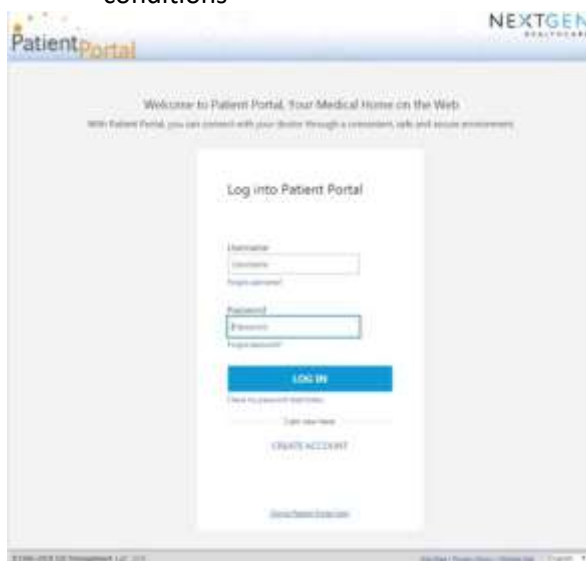

Overview

To help patients that complete their enrollment to NextMD.com website:

1. Patient should be provided an enrollment token from the practice
 - a. If on 5.9.1 an enrollment invitation could be used in place of the token
2. Either enrollment process counts for MIPS if OK button is selected to complete the workflow
 - a. Do not select cancel or the enrollment does not capture

Patient Account Setup Page

1. Click on link provided in the New Enrollment email or go to NextMD.com to create their portal account. If going to NextMD via the link provided click accept terms and conditions
 - a. If going directly to NextMD.com directly click on Create Account and accept terms and conditions

2. Select I have an enrollment token

How to: Patient Portal Version 2.7.3 Current Enrollment Workflow

A screenshot of a web form titled "Set up account". The form contains three input fields: "Username", "Password", and "Confirm Password". Each field is preceded by a red asterisk indicating it is required. Below the "Username" field is a small text note: "Use 8-50 characters". Below the "Password" field are four text notes: "Use 8 or more characters", "Use upper and lower case letters (e.g. Bb)", "Use a number (e.g. 1234)", and "Use a special character (e.g. !@%)". Below the "Confirm Password" field is a small text note: "Avoid including commonly used passwords (e.g. password)". At the bottom of the form are two blue buttons labeled "NEXT" and "CANCEL".

6. Setup Security Questions:
 - a. **New** Security Questions setup requires that patients will setup 5 security questions for administrative purposes

* Security Question 1

 * Answer 1

* Security Question 2

 * Answer 2

* Security Question 3

 * Answer 3

* Security Question 4

 * Answer 4

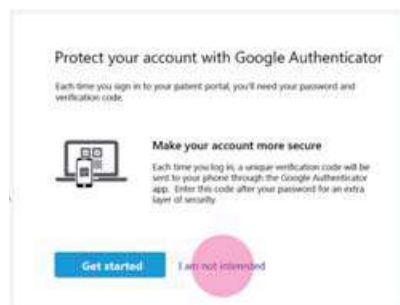

* Security Question 5

 * Answer 5

FRAUD WARNING
 This person who knowingly with the intent to defraud any medical agency for concealing and filing false information for medical care or treatment may be liable to have committed a fraud and which is a crime who may be subject to a crime and penalties.

7. Answer Google Authenticator question

****Note: New Google Authenticator Option:**

Current Enrollees can opt in via the Account Settings tab

- Google Authenticator is a mobile security application with a 2 step verification process. If you use Gmail you may already be familiar with it
- You can receive a unique verification code each time you log into your portal account
- It is available for both Android and iPhone users
 - Download the application via the Play store or App store

Optional setup provided in the New Enrollment process for those not currently enrolled in NextMD.com

- If patients entered their email address that should be used for authoritative items, they will receive a validation email. This email address will be used for items such as:
 - Password reset

How to: Patient Portal Version 2.7.3 Current Enrollment Workflow

- b. Loss of access
- c. Notification of unusual activity on their account
